Product Overview

High-quality tungsten carbide, DC53 and HSS steel blades for wire strippers, terminal crimpers and pneumatic peeling machines

JW-BLD-W01

Tungsten Wire Blades for Stripping Machines - White & Tungsten Steel

JW-BLD-P01

Pneumatic Peeling Machine Blades for Wire Stripping

JW-BLD-TC1

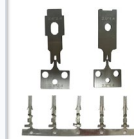

Tungsten Carbide Wire Stripper Blade

JW-BLD-O01

OTP Applicator Mold Spare Parts: Blade Die, Cutter Seat, Holder

JW-BLD-C01

Custom Terminal Crimping Blades & Cutters - High-Speed Steel

JW-BLD-FV1

Wire Stripping Machine Blades: Flat, V, Round, Counter Knives

JW-BLD-CC1

Tungsten & HSS Steel Cable Cutting Blades

JW-BLD-OT1

OTP & Terminal Crimping Blades for Wire Processing Machines

JW-BLD-RW1

Computer Wire Stripping Machine Rubber Wheel & Guide Wheel

JW-BLD-DC1

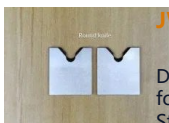

Computer Wire Stripping Blades - DC53 Steel Precision Cutters

JW-BLD-3F1

3F Cable Core Stripper Blade Set - 4-Piece Durable Precision

JW-BLD-RK1

DC53 Steel Round Knife for Pneumatic Wire Stripping Machine

JW-BLD-TH1

Tungsten Carbide/HSS Wire Stripper Blades for Cable Machines

JW-BLD-KM1

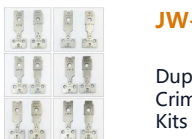

Komax Compatible Stripper Blades - Tungsten Carbide & HSS

JW-BLD-WS1

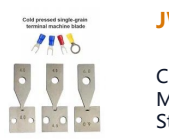

Wire Stripping Machine Blades - Tungsten Carbide & HSS

JW-BLD-DP1

Dupont 2.0/2.54 Terminal Crimping Mold & Blade Kits

JW-BLD-CP1

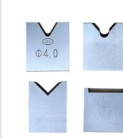

Cold Pressed Terminal Machine Blades - DC53 Steel Industrial Blades

JW-BLD-PC1

Precision Wire Stripping & Cutting Blades | Custom Industrial Machine Blades

JW-BLD-HP1

Pneumatic Wire Stripper Blades Set - Round, V, Flat Knives

JW-BLD-CB1

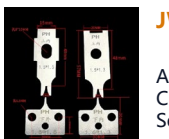

Terminal Cutter Block & Blade Set for Wire Processing Machines

JW-BLD-VW1

Vertical Wire Stripper Blades - Precision Insulation Removal

JW-BLD-TM1

Automatic Terminal Crimping Machine Blades Set - DC53 Steel

JW-BLD-508

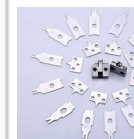

Custom Cutting & Stripping Machine Blades for Wire Processing - Model 508

JW-BLD-TD1

Terminal Machine Blades & Dies - DC53 Steel, 60 Hardness

JW-BLD-OT2

OTP Tungsten Steel Crimping Blade - DC53 Material, 60 Hardness

JW-BLD-W01

Tungsten Wire Blades for Stripping Machines - White & Tungsten Steel

Description

High-speed steel and tungsten wire blades for industrial cable harness manufacturing. Available in white steel (58HRC) and tungsten steel (62HRC) options, suitable for single-wire and double-wire stripping applications. Precision-ground cutting edges ensure clean insulation removal without conductor damage.

Key Features

- Premium white steel & tungsten steel for extended service life
- Precision ground edges for clean, nick-free stripping
- Multiple blade profiles available: flat, V, round, counter knives

Specifications

Material	White Steel / Tungsten Steel (HSS)	Application	Single/Double Wire Stripping
Hardness	HRC 58-62	Compatible Machines	Computer & Pneumatic Strippers
Blade Types	Flat / V / Round / Counter	Customization	Available

JW-BLD-DC1

Computer Wire Stripping Blades - DC53 Steel Precision Cutters

Description

High-precision DC53 steel wire stripping blades for computer wire cutting and stripping machines. Durable, efficient blades for industrial cable processing with excellent wear resistance and edge retention. Precision-ground surfaces ensure accurate stripping depth.

Key Features

- DC53 premium mold steel for superior toughness
- Precision ground to +/-0.01mm accuracy
- Excellent edge retention for extended production runs

Specifications

Material	DC53 Mold Steel	Precision	+/-0.01mm
Hardness	HRC 60-62	Compatibility	All Computer Wire Stripping Machines
Blade Types	Flat / V / Round	Application	Precision Wire Stripping

JW-BLD-KM1

Komax Compatible Stripper Blades - Tungsten Carbide & HSS

Description

Durable Komax-compatible wire stripping blades for cable harness manufacturing. Tungsten carbide or HSS options with precise OEM-equivalent dimensions. Direct replacement blades for Komax automatic cut-and-strip machines at significant cost savings.

Key Features

- Precision OEM-equivalent dimensions for perfect fit
- Direct replacement for Komax stripping machines
- Significant cost savings vs original manufacturer parts

Specifications

Material	Tungsten Carbide / HSS	Equivalent to	Komax OEM blade specifications
Hardness	HRA 89-91 / HRC 60-62	Application	Automatic Cut & Strip
Compatibility	Komax Kappa/Gamma/Lambda & other series	Cost Savings	Up to 50% vs OEM blades

JW-BLD-FV1

Wire Stripping Machine Blades: Flat, V, Round, Counter Knives

Description

High-quality cutting and stripping blades for industrial cable harness manufacturing. Customizable in white steel (58HRC), tungsten steel (62HRC) and DC53 (60HRC) materials. Full range of blade types: flat knives, V-knives, round knives, and counter knives.

Key Features

- Complete blade set: flat, V, round and counter knives
- Three material grades for different production volumes
- Fully customizable dimensions and profiles

Specifications

Material Options	White Steel / Tungsten Steel / DC53	Customization	Material, size, profile all customizable
Hardness	HRC 58-62	Compatible Machines	Universal wire stripping machines
Blade Types	Flat / V / Round / Counter Knives	Application	Wire cutting & insulation stripping

JW-BLD-OT1

OTP & Terminal Crimping Blades for Wire Processing Machines

Description

High-precision OTP applicator blades and terminal crimping knives for cable cutting and stripping machines. Durable industrial-grade blades with standard OTP mounting interface for universal compatibility with mainstream crimping applicators.

Key Features

- Standard OTP mounting for universal compatibility
- DC53/HSS construction for long service life
- Precision crimp profile for reliable electrical connections

Specifications

Material	DC53 / HSS Tool Steel	Application	Terminal Crimping
Hardness	HRC 58-62	Compatibility	OTP Applicators & Terminal Crimping Machines
Mounting	Standard OTP Interface	Customization	Available

JW-BLD-TM1

Automatic Terminal Crimping Machine Blades Set - DC53 Steel

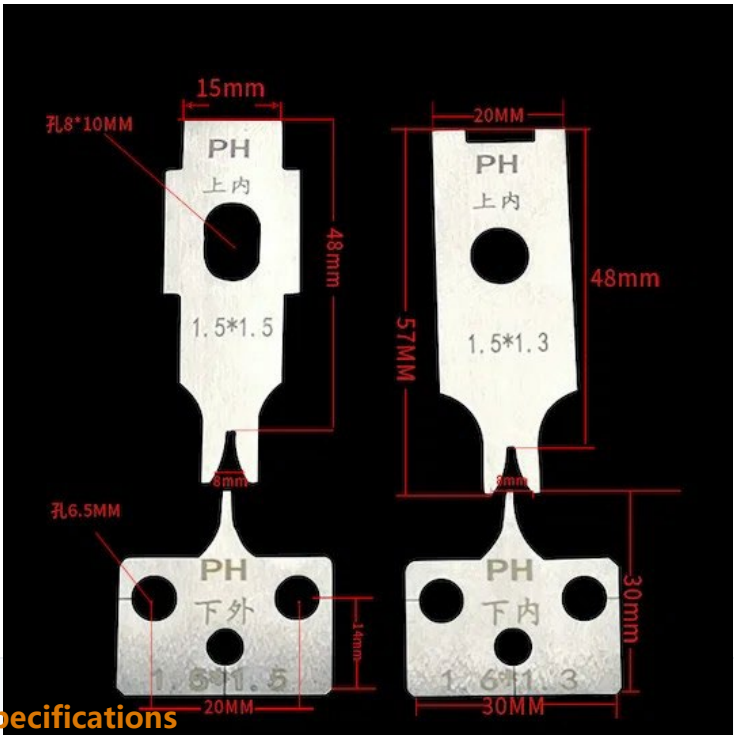

Description

High-quality DC53 steel terminal machine blade set for wire processing. Includes upper and lower cutters, stripping blades and all necessary blade components for automatic terminal crimping machines. Complete blade set for full machine maintenance.

Key Features

- Complete blade set for automatic terminal machines
- DC53 steel rated for 50M+ crimp cycles
- All necessary blades in one kit for convenient maintenance

Specifications

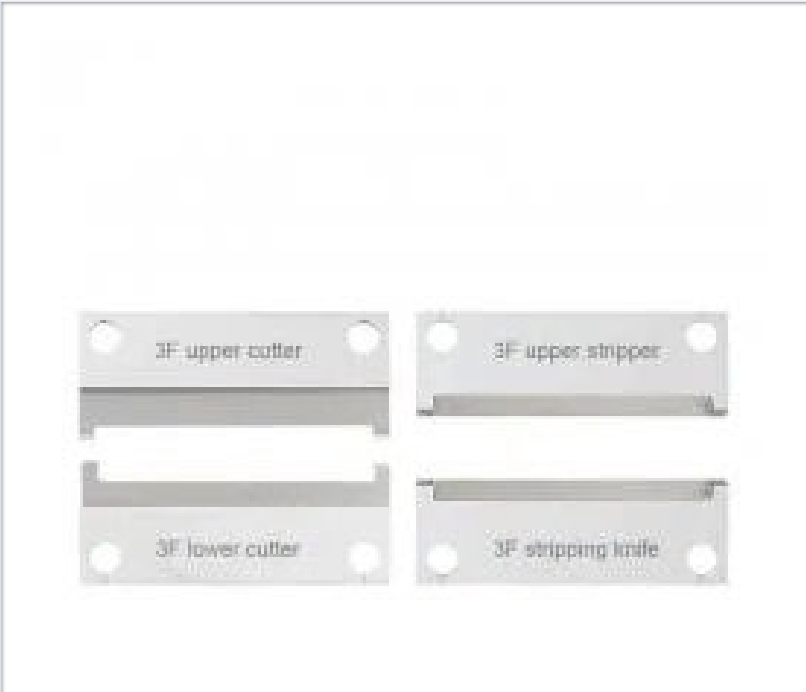

Material	DC53 Steel
Hardness	HRC 60-62
Set Contents	Upper/Lower Cutters + Stripping Blades + Components

Application	Fully Automatic Terminal Crimping
Compatibility	Automatic terminal crimping machines (various brands)
Tool Life	50M+ crimp cycles

JW-BLD-3F1

3F Cable Core Stripper Blade Set - 4-Piece Durable Precision

Description

4-piece blade set for 3F vertical pneumatic wire stripping machines. Includes upper and lower cutting knives and stripping knives specifically designed for core wire (inner conductor) insulation removal without damaging fine copper strands.

Key Features

- Complete 4-piece set for 3F pneumatic strippers
- Designed for core wire insulation without strand damage
- Precision machined for perfect alignment

Specifications

Material	HSS / Tungsten Steel	Application	Core Wire (Inner Conductor) Stripping
Hardness	HRC 60-62	Compatible Machines	3F Vertical Pneumatic Strippers
Set Contents	4 pieces (upper/lower cutters + stripping knives)	Customization	Available

JW-BLD-OT2

OTP Tungsten Steel Crimping Blade - DC53 Material, 60 Hardness

Description

High-precision OTP crimping blade made from Japanese DC53 tungsten steel. 60 HRC hardness rating, 50+ million cycles lifespan. Premium-grade replacement blade for OTP applicators requiring maximum durability.

Key Features

- Premium Japanese DC53 tungsten steel construction
- HRC 60 hardness for extreme wear resistance
- 50M+ cycles lifespan for high-volume production

Specifications

Material	Japanese DC53 Tungsten Steel	Tool Life	50M+ crimp cycles
Hardness	HRC 60	Mounting	Standard OTP interface
Type	OTP Crimping Blade	Application	High-volume Terminal Crimping

JW-BLD-RK1

DC53 Steel Round Knife for Pneumatic Wire Stripping Machine

Description

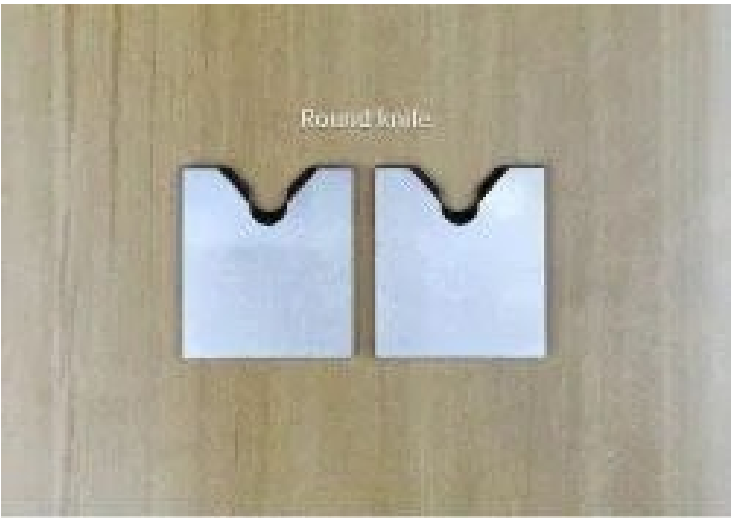

High-precision DC53 steel round knife for pneumatic peeling machines. Standard blade size 34x30x3.0mm, suitable for all wire types. Durable circular cutting edge provides consistent stripping performance over long production runs.

Key Features

- DC53 steel with HRC 60-62 hardness for durability
- Standard 34x30x3mm size fits all pneumatic strippers
- Circular edge design for uniform stripping quality

Specifications

Material	DC53 Steel	Blade Type	Round / Circular Knife
Hardness	HRC 60-62	Application	Pneumatic Wire Stripping
Blade Size	34 x 30 x 3.0 mm	Compatible Machines	All Pneumatic Peeling Machines

JW-BLD-RW1

Computer Wire Stripping Machine Rubber Wheel & Guide Wheel

Description

Premium rubber wheels and guide wheels for computerized wire stripping machines. Ensure smooth, precise cable feeding with excellent grip without damaging wire insulation. Available in various sizes for different machine models.

Key Features

- High-quality polyurethane for excellent wire grip
- Precision bearings for smooth, vibration-free feeding
- Multiple sizes available for all machine models

Specifications

Material	Polyurethane Rubber + Steel Bearing
Hardness	Shore A 70-80
Type	Feed Roller / Guide Wheel

Function	Wire Feeding & Guiding
Compatibility	All Computer Wire Stripping Machines
Sizes	Various diameters available

Model List

Model	Product Name	Material	Blade Type
JW-BLD-W01	Tungsten Wire Blades for Stripping Machines - White & Tungsten Steel	White Steel / Tungsten Steel (HSS)	Flat / V / Round Blades
JW-BLD-P01	Pneumatic Peeling Machine Blades for Wire Stripping	High-Speed Steel (HSS) / DC53	V-Knife / Flat Knife
JW-BLD-TC1	Tungsten Carbide Wire Stripper Blade	Tungsten Carbide (硬质合金)	Custom Profile
JW-BLD-O01	OTP Applicator Mold Spare Parts: Blade Die, Cutter Seat, Holder	Tool Steel / HSS	Blade Die / Cutter Seat / Spacer / Holder
JW-BLD-C01	Custom Terminal Crimping Blades & Cutters - High-Speed Steel	High-Speed Steel (HSS) / DC53	Custom Crimping Profile
JW-BLD-FV1	Wire Stripping Machine Blades: Flat, V, Round, Counter Knives	White Steel (58HRC) / Tungsten Steel (62HRC) / DC53 (60HRC)	Flat / V / Round / Counter Knife Set
JW-BLD-CC1	Tungsten & HSS Steel Cable Cutting Blades	Tungsten Steel / High-Speed Steel	Shear Cut / Guillotine
JW-BLD-OT1	OTP & Terminal Crimping Blades for Wire Processing Machines	DC53 / HSS Tool Steel	OTP Standard Crimping Blade
JW-BLD-RW1	Computer Wire Stripping Machine Rubber Wheel & Guide Wheel	Polyurethane Rubber / Bearing Steel	Feed Roller / Guide Wheel
JW-BLD-DC1	Computer Wire Stripping Blades - DC53 Steel Precision Cutters	DC53 Mold Steel	Precision Flat/V/Round Blades
JW-BLD-3F1	3F Cable Core Stripper Blade Set - 4-Piece Durable Precision	HSS / Tungsten Steel	Core Wire Stripping Blade Set (4 pcs)
JW-BLD-RK1	DC53 Steel Round Knife for Pneumatic Wire Stripping Machine	DC53 Steel	Round Knife (Circular Blade)
JW-BLD-TH1	Tungsten Carbide/HSS Wire Stripper Blades for Cable Machines	Tungsten Carbide / HSS (two grades)	Flat / V / Custom Profile
JW-BLD-KM1	Komax Compatible Stripper Blades - Tungsten Carbide & HSS	Tungsten Carbide / HSS	Komax OEM Replacement
JW-BLD-WS1	Wire Stripping Machine Blades - Tungsten Carbide & HSS	Tungsten Carbide / HSS	Stripping & Cutting Blades
JW-BLD-DP1	Dupont 2.0/2.54 Terminal Crimping Mold & Blade Kits	Brass Press Die + HSS Blades	Dupont Terminal Crimping Kit
JW-BLD-CP1	Cold Pressed Terminal Machine Blades - DC53 Steel Industrial Blades	DC53 Steel	Cold-Press Terminal Blade
JW-BLD-PC1	Precision Wire Stripping & Cutting Blades Custom Industrial Machine Blades	HSS / Tungsten Steel / DC53 (custom)	Custom Precision Blades
JW-BLD-HP1	Pneumatic Wire Stripper Blades Set - Round, V, Flat Knives	HSS / Tungsten Steel	Round + V + Flat Knife Set
JW-BLD-CB1	Terminal Cutter Block & Blade Set for Wire Processing Machines	Tool Steel / DC53	Cutter Block + Blade Assembly
JW-BLD-VW1	Vertical Wire Stripper Blades - Precision Insulation Removal	HSS / DC53 / Tungsten Steel	Vertical Stripper Blade Set
JW-BLD-TM1	Automatic Terminal Crimping Machine Blades Set - DC53 Steel	DC53 Steel	Upper/Lower Cutters + Stripping Blades
JW-BLD-508	Custom Cutting & Stripping Machine Blades for Wire Processing - Model 508	Special Export-Grade Steel	508 Series Blades
JW-BLD-TD1	Terminal Machine Blades & Dies - DC53 Steel, 60 Hardness	Japanese DC53 Steel	Blades & Die Sets
JW-BLD-OT2	OTP Tungsten Steel Crimping Blade - DC53 Material, 60 Hardness	Japanese DC53 Tungsten Steel	OTP Crimping Blade
